

**GlassFibre Reinforced Polyester
(GRP) One Piece Water Tank**

The logo graphic for Devtek Tanks is located on the left side of the slide. It features a dark grey rectangular background at the top with the text 'DEVTEK TANKS' in white, bold, uppercase letters. Below this, there is a blue area with a series of horizontal, wavy lines that create a sense of depth and movement, resembling water or a tank's interior. The lines are more densely packed at the bottom and become sparser towards the top.

DEVTEK TANKS

Devtek Prime Edge Ltd with her **Devtek Tanks** brand is a water and environmental service company in Nigeria.

- Hotels
- Public houses
- Industrial sites
- Hospitals
- Leisure facilities... e.t.c.

GPR ONE PIECE WATER TANK

The GRP tanks are manufactured from non-corrosive materials and as a consequence require little or no specific maintenance other than routine checkup which can be done once a year.

Our Glassfibre Reinforced Polyester tanks are designed for use in varying climatic conditions and can be provided with integrated insulation.

Our GRP Tank is rigorously tested for potable water compatibility. Some of the tests include long term material performance and mechanical properties, on-metallic components, adhesives etc.

GRP uniformly strong and extremely durable under weather conditions. They are resistant to corrosion and leakage.

The outer surface prevents dirt build up and discourages the growth of any algae and fungi by blocking light transmission.

The smooth inner surface of the tank in contact with the water has a high gloss, smooth finish which does not readily attract or retain dirt.

Features

Keeps Water Clean and Pure

The GRP is completely opaque and does not permit the passage of any light through it. This inhibits the growth of algae and other microorganisms.

- High Strength, yet light weight.
- Requires minimal or no maintenance, painting or cathodic protection.
- Long life of usage for more than 40 years.
- Keeps Water Cold (Durable under harsh conditions).
